

Well-proven lenses on a new camera

Leica SL adapters from NOVOFLEX

The new Leica SL enlarges the lineup of today's mirrorless system cameras. With the launch of this new camera, NOVOFLEX, as one of the first manufacturers worldwide is presenting a series of lens adapters, which enable the use of existing lenses with the new Leica SL. Thus, a huge quantity of lenses is available for this new camera right from the start.

As all the existing adapters from NOVOFLEX the new Leica SL adapters are entirely Made in Germany and produced on the basis of highest quality standards. They provide a high precise correction of the flange focal length and permit focusing to infinity. Moreover, the versions for Nikon (exception: E-Nikkore lenses – lenses with electronic aperture control) Minolta AF/Sony Alpha and Pentax K are equipped with an integrated aperture control, allowing the use of lenses from these manufacturers which do not come with integrated aperture control rings anymore.

Leica-R photographers will like the new LET/LER-adapter which is offering a direct connection of the high-quality Leica R-type lenses.

The following adapters are available:

Bayonet mount	Order codes
Canon FD	LET/CAN
Contax/Yashica	LET/CONT
Leica M	LET/LEM
Leica R	LET/LER
Minolta MD und MC	LET/MIN-MD
M42	LET/CO
Nikon F	LET/NIK
NOVOFLEX A-Mount	LETA
Olympus OM	LET/OM
Pentax K	LET /PENT
Sony Alpha/Minolta AF	LET/MIN-AF
39 mm screw mount	LETLEI

The new Leica SL adapters are available from now on.

NOVOFLEX adapters are available for nearly any camera/lens combination. For more details please refer to the adapter finder on the NOVOFLEX home page www.novoflex.de.
