

photokina 2016

Electronic Nikon lens adapter for Leica SL

Already in summer 2016 NOVOFLEX Präzisionstechnik GmbH, Memmingen, has launched the first electronic lens adapter, with which Canon EOS lenses can be used with the Leica SL. On occasion of the photokina 2016, the Memmingen accessories specialist will present another electronic adapter for the use of E-type NIKKOR lenses with the Leica SL. Doing so, a couple of electronic camera functions can be transferred to the lens.

For the time being 13 E-type NIKKOR lenses and converters are compatible with the new adapter, prime lenses, zoom lenses as well as two tilt-/shift lenses. Thanks to this new adapter an even greater selection of high-quality lenses is available for the Leica SL.

The Nikon adapter as well as the EOS adapter supports the following features: autofocus, automatic aperture control, AF/MF modus as well as depth of field indication. Moreover, the EXIF data for aperture and focal distance are transmitted. Of course, the new electronic Leica SL adapter is „Made in Germany“. The adapter can only be used with the LEICA SL.

NOVOFLEX adapters are available for almost any camera/lens combination. For more details please refer to the adapter finder on the NOVOFLEX home page www.novoflex.de.

Safely fixed

Besides the new adapters NOVOFLEX is presenting at the same time the adapter tripod collar **ASTAT-CN**. ASTAT-CN is designed in order to relieve the bayonet mount of the Leica SL and is especially recommended for the use of big and heavy lenses. The tripod collar is suitable for the electronic lens adapters SL/EOS and SL/NIK. The tripod collar with order code ASTAT-CN has a weight of 116 g and is equipped with an ARCA-compatible tripod foot with additional 1/4" and 3/8" threads.

For more information please contact: NOVOFLEX Präzisionstechnik GmbH, Brahmstrasse 7, 87700 Memmingen, Phone +49 83 31 / 8 88 88, Fax +49 83 31 / 4 71 74, E-Mail: mail@novoflex.de or at www.novoflex.de.

Information for the editorial department:

We will be pleased to send you an adapter for test purposes.
